## PERSONAL PROJECTS

### Banking App

- This is a Bank Website with responsive features and design built using React JS.
- <https://banking-website-5rwq.vercel.app>

### Car-rentals

- Exploring Supabase and its key features, I developed this car rental application that provides an easy way to rent a car at low prices with comfortable facilities.

### Personal Website and Portfolio

- This was built using React JS and SCSS.
- <https://my-e-portfolio-black.vercel.app/>

### Bookmark Landing Page

- I built this using Tailwind, TypeScript and React. I was able to type check props, hooks, and create a bunch of reusable components in my very first attempt.
